Experience

- Analyst – I Service Management at Accelya COE Sept 2021- Present
 - Triaged more than 440+ issues, bugs, tickets by searching logs, data using tools like **OpenSearch**, **Postman** & documenting relevant information while coordinating with relevant teams & airline customers using **Jira** system.
 - Engaged in multiple P1, P2 issues by quickly identifying problem area & collecting as much data as possible.
 - Replicated various issues in different environments using Postman, **SPRK**.
 - Identified & informed multiple issues in PreProd environment before they progress into Production by means of correct validation process for different airlines.
 - Coordinated with Sysadmin Team to validate & ensure correct deployments during production releases.
 - Created & maintained a common repository of all resources required to triage for L2 team.
 - Contributed to a general notes documentation for L2 team to refer.
 - Created a **Datadog dashboard** to reduce manual efforts of L2 team to track production infrastructure metrics.
